MY.ASSET

KEY BENEFITS

STALLION GROUP SMARTER | FASTER | HIGHER
INDIA I UAE I QATAR I OMAN

Accurate Asset Data

The asset data will be highly accurate with the most recent physical status available for each asset.

Better Control Over Assets

By capturing Location, Owner, Custodian and User information for each asset, My.Asset ensures high level of accountability and accurate asset data.

Efficient Asset Audit

The time, money and efforts spent on asset audit reduces significantly and the physical information collected during audit is updated real-time and is highly accurate.

Better Procurement Decisions

By knowing what assets are unused, where they are and who has them, better procurement decisions can be made.

True and Fair Reporting

The fixed assets reporting in financial statements and other reports is true and fair as accurate physical information is available.

Reduced Tax Liabilities

By timely providing for/writing off assets that you no longer have or are obsolete or are unused, the overall tax liability reduces. Asset register with depreciated value can be generated in few clicks
